

Abineshwaran (Intern Tasks –JavaScript)

Task – 02/07/2024	Date
- Completed Learning Keyed Collection (Map, Weak Map. Set, Weak Set) - I have learned instance methods like (Map. delete (), Map. entries (), Map.forEach(), Map.get(), Map.has(), Map.keys(), Map.set(), Map.values())	02/07/2024
Completed Learning Es6 Features like (ArrayDestructuring , objectDestructuring, Spread Operator, Promises	02/07/2024
I have Learned some basics about DOM Interaction like Manipulating Elements, Attributes and Properties:	02/07/2024
Started to learn About JS Async	02/07/2024

Task (03/07/2024)	Date	Reference
Completed Learning About (synchronous and asynchronous) (promises async await)	03/07/2024	- YouTube - W3 Schools - Mdn Web Docs
Completed Learning About (Local Storage and Session Storage)	03/07/2024	YouTube
I Have Solved 21 JavaScript Basic Programs in Code Chef	03/07/2024	CodeChef URL
I Have Learned Some Object Methods and Properties	03/07/2024	- W3 Schools - Mdn Web Docs

Task	Date	Reference
• I Have Created a Basic Application With The Features (Search Product, Add Product, Remove Product) • I have Learned to store the data in local Storage and remove data's I Have also Implemented This in the Application • And I Have Deployed This Website through Netlify	• 04/07/2024	• Mdn Web Docs • W3 Schools
• I Have Solved 5 JavaScript Problems in Leet Code	• 04/07/2024	• Mdn Web Docs
• I Have Learned About the Closures	• 04/07/2024	• YouTube • Mdn Web Docs

Task	Date	Reference
• I Have Completed Adding Some Features to the Basic E-Commerce Application (Like Placing Orders, And Providing Discount to Some Products) • I Have Learned to Destruct the Objects and Arrays	• 05/07/2024	• Stack Overflow
• I have learned About Object properties configuration (Property getters and setters, Property flags and descriptors)	• 05/07/2024	• JavaScript Info • You tube
• I Have Learned Some Basics in Regular Expressions	• 05/07/2024	• YouTube • W3 Schools

Task	Date	Reference
Completed Creating Swagger Ui for the Given Routes	06/07/2024	
I Have Learned Some Basics in Regular Expression	06/07/2024	- YouTube - Mdn Web Docs
- I Have learned some More Topics in Promises, async/await (Callbacks, Error handling with promises, Promises chaining)	06/07/2024	- YouTube - Mdn Web Docs
I Have Started to Learn the Basics of React	06/07/2024	- YouTube React.dev

Task	Date	Reference
------	------	-----------

I Have Learned Some Basics of React like (• Reusability of Components in React • What are Props in React • Destructuring Props • Immutability of Props • Passing Arrays & Objects to Components Using Props • Rendering Arrays or Lists in React • Rendering Array of Objects in React • Conditionally Rendering JSX & Components • State In React, Props V/S State in React	08/07/2024	• YouTube • React.dev
--	-------------------	---

Task	Date	Reference
- Completed Learning About - Dom Manipulation - I Have Learned How Does the Virtual Dom Works in React	10/07/2024	- You tube, - Google
I Have Learned About Hooks in React and I Have Implemented useState,useEffect, useCallback	10/07/2024	- LinkedIn Learning - Youtube
I Have Intergrated An Api Using Use Effect and Stored It Using Material Table s	10/07/2024	React.dev

Task	Date	Reference
Completed Learning hooks in React and I Have Done a Basic Implementation Using All the Hooks And I Have Learned About Props Drilling and Some New Plugins for Creating Form like (SurveyJs ,Uniforms) And I Have deployed It Through Netlify	11/07/2024	React.dev
I have Started to Learn Spring Boot and I Have Covered the Topic in Spring Boot like (Model View Controller (MVC), (CSR)) And The Structure of The Spring Boot Application	11/07/2024	spring.io - You Tube

Task	Date	Reference
• I Have Completed Creating a Crud Operations Using Spring Boot I Have Learned About Annotation in Spring Boot, • I Have Learned about the Spring Boot Layered Architecture	12/07/2004	YouTube
I Have Learned About Dependency Injection and loc (Inversion of Control) Dynamic Binding Basics Of JDBC And I Have Also Learned Some Basics In Java	12/07/2024	YouTube

Task	Date	Reference
------	------	-----------

Today I Have Completed Learning About the The (IOC) Container And Types in Dependency Injection Like (Field Injection, Setter Injection, Constructor Injection) And I Have Learned Some More Advanced Annotations In Spring Boot I Have Learned About the JDK, JRE, JVM I Have Learned About The Application Structure	13/07/2021	• YouTube • Spring.io
I Have Learned Some Basics In Java Like (Class,Objects,Constructor)	13/07/2021	

Task	Date	Reference
I have Learned About The apache-commons-beanutils and I Have Learned To Create a Structured Crud Api using Spring Boot And MongoDB I Have Learned About the Data Transfer Objects	14/02/2024	• Youtube • Chrome
I Have Learned Some Basic Oops In Java	14/02/2024	• Youtube

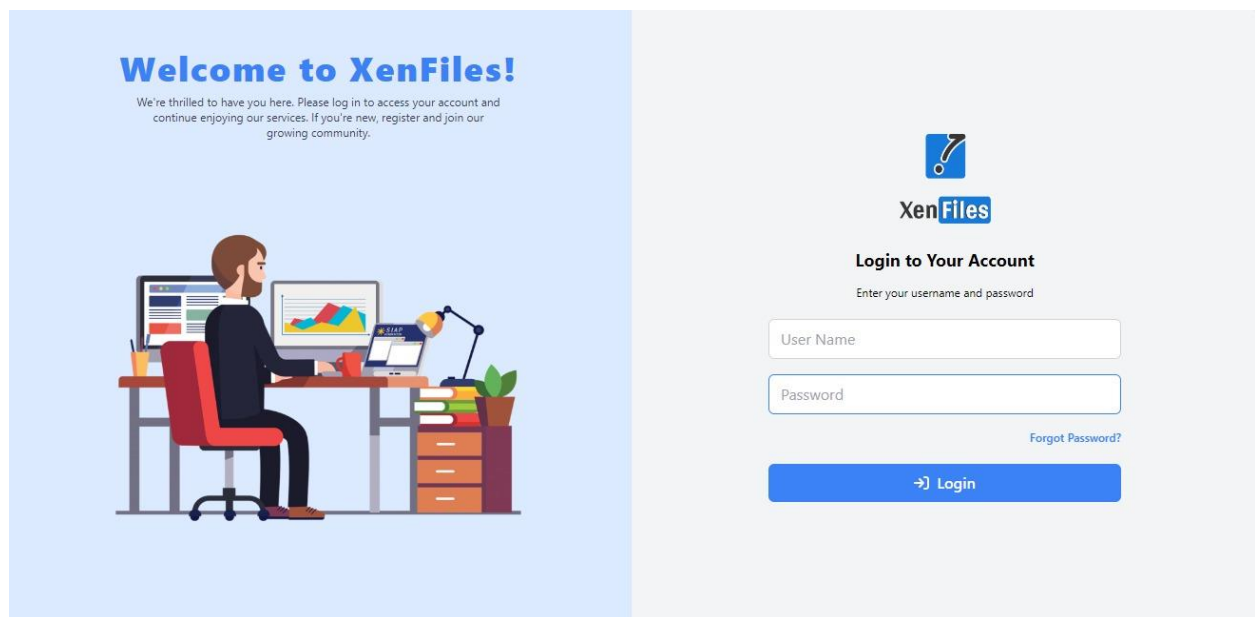

Task	Date	Reference
Completed Learned Cors, Entity Validation, Sending Data from Entity To Dto ,And RequestExceptionEntity And Exception Handling	16/07/2024	YouTube
And I Have Learned Some Basics In Java (like Literals Type Conversion And Casting And Conditional Statements	16/07/2024	YouTube

Task	Date	Reference
I Have Created An Api For Login And Register With Jwt Authentication Toady I Have Learned About Token Validation, HMAC-SHA512 Algorithm And I Have learned About GlobalExceptionHandler In SpringBoot	17/07/2024	YouTube

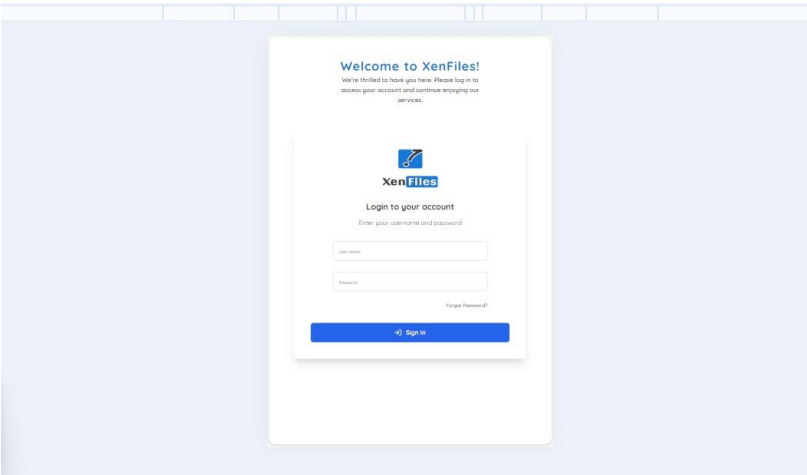

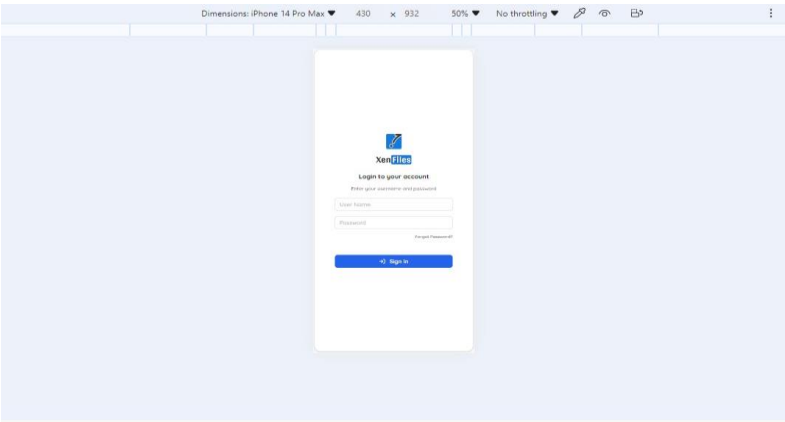

Task	Date	Reference
Today I Have Learned About Cookies and Sessions And I Have Implemented It I Have Learned to Store Jwt token Inside The Cookies And Also I Have Learned To Store The Session In The Database And I Have Learned Some Basics In Java Like Loops And Operators	18/07/2024	Youtube

Task	Date	Reference
Learnt about custom session management in spring boot and then learnt to create cookies in spring boot	19/07/2024	- You Tube - Spring.io
Learnt to store cookies inside the session a session and then manage session according to the user and user request	19/07/2024	- YouTube - Spring.io

Task	Date	Reference
Creating Login Page For the given Template and Exploring Build option in next Js	20-07-2024	• Next.Js Official Documentation • Tailwind Css Official Documentation
Completed Creating Login Pages For The Given Template and Explored About the Build and Deploy In Next Js And Exported about tailwind Css And Learned Some Basics in NextJs, And Was Working in Session Management in SpringBoot	20-07-2024	• Next.Js Official Documentation • Tailwind Css Official Documentation

Task	Date	Reference
Completed Responsiveness in login page changed it to all the compatible mode	22-07-2024	Tailwind Css Official Documentation

Task	Date	Reference
Completed Creating Api for the login With Authentication using Jwt and then stored the Jwt token in the cookies	23-07-2024	• YouTube • Spring Boot Official Website
Completed Intergrating the login api in the ui and then managed the routes based on the authentication	23-07-2024	• YouTube • Spring Boot Official Website
Completed Creating crud for all the 5 masters with the completed fucntionality	24-07-2024	• Spring Boot Offical Website
My Self And Indian Joined Together And Have Completed Integrating The Login Page And DashBoard And Have Completed UI For the Masters and Completed The Changes In folder Structure and Solved Cors Policy Issue	25-07-2024	• Spring Boot Offical Website

My Self And Indian Joined Together And Have Completed Integrating The Login Page And DashBoard And Have Completed UI For the Masters and Completed The Changes In folder Structure and Solved Cors Policy Issue	26-07-2024	• Spring-Boot-Offical Website
---	------------	---

Myself And Indian Have Completed Mobile Responsive And Api Integration And Completed Master's UI With Add And Edit forms and Completed integrating api for the masters Client, Completed Masters Ui Pagination	27-07-2024	• Spring-Boot-Offical Website
Myself And Indian Have Completed Setting Up the Token In Cookies And Completed Refresh Token Completed Api Intergration In Masters For All The 5 Masters	28-07-2024	• Spring-Boot-Offical Website
There Some Issues Faced In The Masters Ui Like (Card Size Was Getting Changed When ever The Browser Gets Refershed) So was working in the masters ui and the solved the issue and then their was also some issues in the	29-07-2024	

responsiveness and then the datas from the backend was not received properly so solved this problem		
---	--	--

Task	Date	Reference
I have learned some New things in spring Security (Persisting Authentication, Password,Storage,And then implemented it)	30-07-2024	Spring Official Website
